Aim: To write a diary account of the F3 2013 tornado in Moore, Orlando

Early this morning, in Tornado Alley, my mother and I were having breakfast when we heard the News of an F3 tornado. It was heading our way fast! Immediately, my Mom packed torches water bottles and little packets of food. Even though I had done this many times before, I still get chills every time!

I felt so scared. Everything else we need is always in the cellar. My two sisters and two brothers quickly dived into a corner and my sister put on the radio.

On the News, they said that we had to stay in our cellar. My mom and dad said I should see whether it was all over. Eventually, my family and I came out of our shelter and my mother said we could go straight the Granma's. Everything was destroyed! We were allowed to stay at Granma's for six months until everything returned to normal.
